Here comes the pain little lover all the stands
undercover
Do you cry? You don't have to be ashamed!
Is it true you can't remember
what you were through last september
I wonder why and if you still forget the game
Follow me and I will take the lead
You can't get of a train in full speed

How far would you go?
Without me you'll never know
If you want to learn to fly
the only way is to let go
How How far would you go?

It was the night last september
A redmark in your calender
What a mess, and you're trying to break free
All in black now cross the borders
'Cause I am back to give the orders
And confess
Have you been missing me?

Follow me,
And I will take the lead.
You can't get of a train in full speed

How far would you go?
Without me you'll never know
if you want to learn to fly
the only way is to let go
How far would you go?

Lover
All the stands undercover
Do you cry, you don't have to be ashamed

How far?
