I see fire in your eyes
Feel our bodies burning from the heat
Magic runs through our veins
I'm with you now and thrusting in deep
And then your on your way
your love will always stay
In four walls wishing you were mine
I won't begin to think
when the days start to sink
Will I ever see you in time

All alone in the night
I'm reaching out for your love
Days are passing by
I visualize but that's not enough
We need to run away
the chains won't let me stray
The secrecy I can't hold back
When we're all alone
the whispers turn to moans
In my grasp, I began to attack

It's living inside
Temptation of the flesh
There's no escaping
Temptation of the flesh
A need for passion
Temptation of the flesh
The main reaction
Temptation of the flesh

I remember when
I'd cling to you like second flesh
Crawling out in the night
out to fulfill your lusting quest
At times I will forget
but never will regret
How we played between the sheets
And when I feel your sweat
my hunger must be fed
You're laying there I'm redy to eat

Oh you'll never know
how my love for you reflects
A vision in my mind
I need you here so I can inject
The passion's growing strong
as one we do belong
Bonded till eternity
maybe a twist of fate
and if it's not too late
We'll close the door and hide the key

(CHORUS)
