# "Every Good Man"

Visit "[Every Good Man](#)" on [MotoLyrics.com](#)

Every good man needs a helping hand  
so I travel alone if I can  
Every man has a guiding star  
and he knows what he's gonna get  
when he's going too far

Living on the dark side once again  
It's sad to lose a friend  
Looking at things with empty feelings  
Still we're going on

For Every good man needs a helping hand  
I should have known too  
Some of us learn too late, I'm sorry  
Every good man needs a helping hand  
It's true

Every good man needs a helping hand

so I travel alone if I can  
Every man has a guiding star  
and he knows  
what he's gonna get  
when he's going too far

Living on the dark side once again  
It's sad to lose a friend  
Looking at things with empty feelings  
Still we're going on

For Every good man needs a helping hand  
I should have known too  
Some of us learn too late, I'm sorry  
Every good man needs a helping hand  
It's true
