Berlin's on fire tonight, we'll burn too
These unfamiliar skies don't cheat on you
A trail of eclectic lights to coerce you
There is no wall here

I'm scared what I'm feeling for you
Feeding a cold desire

You to this city's arms I bestow
Pushing it way beyond my comfort zone
Nervously, I foretold of your seizure of my Berlin heart

I'm scared what I'm feeling for you
Feeding a cold desire

A tear in my heart I've never known
The lesson is naked here
The rift in my heart is overblown
Your pitch is a hands-on deal

I'm scared what I'm feeling for you
Feeding a cold desire
