**VERSE 1:**

We could fly around, together  
All around the world, forever  
You came up to me said you love my style  
Went up to you said I love your smile

**PRE CHORUS 1:**

Did you ever think it would be this way?  
Did you ever think I'd have the strength to say  
"I could be your bad boy, you could be my good girl"  
Haha, but you already know...

**CHORUS:**

Every time I see you girl, I know that you'll be kickin'  
with me  
Every time you see me girl, you know that you'll be  
comin' with me  
Yeah, yeah  
X2

**VERSE 2:**

Leave you, I'd say never  
Cause your loves my treasure  
You say that you're digging my vibe  
Why is loving you such a crime?

**PRE CHORUS 2:**

Did you ever know that we could go  
To another place that's all our own  
I could be your bad boy  
You could be my good girl...

**CHORUS:**

Every time I see you girl, I know that you'll be kickin'  
with me  
Every time you see me girl, you know that you'll be  
comin' with me  
Yeah, yeah  
X2

**BRIDGE:**

Every single night, every single night  
What can you say?  
X3

CHORUS:

Every time I see you girl, I know that you'll be kickin'  
with me  
Every time you see me girl, you know that you'll be  
comin' with me  
Yeah, yeah  
X2

Every single night, every single nightÂ...  
What can you say? What can you say?
