[Verse 2: Lloyd Banks]

Hey! You love it when it sounds like this  
That's why the club crowded better find you a bitch  
She heard my name and she shouted this is me and  
my fifth  
And we both bout it bout it in a brand new six, with a  
smoke cloud around it  
Near the square anywhere, no sneakers on the rug  
And my system knockin, like the speakers in the club  
Look ma, drop the lame and spend a weekend with a  
thug  
I'll have you back at the cuzzi geekin of the bud  
When I come through I come through sparklin  
Six car garage in you in the apartment, and starvin  
I walk and talk, like I was raised around macks  
New York native, there's a razor in the hat  
Smooth as Fillmore Slim with gators on the track  
I hit 'em, quit 'em, and dish 'em off like that  
I'm a bring her all of the jewelry cause I don't play the  
back  
And give less to spray now or later on the lac

[Chorus: LL Cool J] (50 Cent)

Now when you see me in the club (You can bump this)  
You ballin out doin it up (You can bump this)  
The champagne won't buss (You can bump this)  
You wanna do it like us (You can bump this)  
Now mama after my show, come on and let's roll  
I got places to go, and money to blow  
I got the shorty so I just keep it on the low  
Shhhhhh!!!!!!!!!!!! I said keep it on the low
