East Side, waiting on Queens Boulevard  
Tongue tied, amazed that I can be here with you  
And here's proof:

Vinyl records and oldie tracks  
Move me forward but its best to look back  
I think my heart skipped a beat when I saw you  
When I saw you

Late nights talking on the telephone  
Inspired by everything you do in my world  
My girl

Vinyl records and oldie tracks  
Move me forward but its best to look back  
I think my heart skipped a beat when I saw you  
When I saw you

East side, west side  
All right we can party in Manhattan in the summers all  
the time  
If you want to  
I know I do

And we can blow out the city lights  
Tonight

Vinyl records and oldie tracks  
Move me forward but its nice to look back  
I think my heart skipped a beat when I saw you  
When I saw you

Tasty dinners and late night shows  
Love December on the radio  
I know my heart skipped a beat when I saw you  
I know my heart skipped a beat when I saw you  
When I saw you
