If you tell the world your ugly secrets
Then your only job would be to keep it real
Don't worry, don't worry, no

Lend your love to me and I will keep it
Close to me until I fall asleep
I feel so lucky, so lucky, I will

If you stick with me there will definitely be
Happy ever after with each other
I'd never need another lover, dear
Because I love you, I love you, I do

So if you rescue me from the suddenty
That I need someone like you, I do
I know my heart is true

La la la la laa
La la la lala lalalala laa

Because before you know we'll be good to go
When I need someone like you, I do
I know my heart is true

Someday baby we may look around us
Find the world is getting along without us fine
But don't worry, don't worry, no

Because before you know we'll be good to go
When I need someone like you, I do
I know my heart is true
When I need someone like you, I do
To say my heart breaks through
