I always used to have someone to... come home to...
But knowing there is no one waiting...s frustrating...
How I miss the love she gave me
I need her to come and save me from myself

All the love in the world
Could never be enough for her
I'm so lonely now she's gone
All I do is tie one on

The love we had that once was cherished... is
perished...
There ain't no part of me she wants to... hold onto...
Feel as though I can't go on, I
Can't believe she's really gone away from me

All the love in the world
Could never be enough for her
You find me sleeping on the lawn
'Cause I been an' tied one on

But if I could get her on my own
I'd be alright
That's when I know... she's mine

The love we had that once was sacr?d... is wasted...
Never even knew her reasons... for leaving...
Now everyday I do the same thing
I've become so uncomplaining, don't know why

All the love in the world
Could never be enough for her
I'm so lonely now she's gone
All I do is tie one on

All the love in the world
Could never be enough for her
You find me sleeping on the lawn
'Cause I been an' tied one on
