#### [Verse]

I close my eyes to live a different life  
My truth is just a lie and so I say goodbye  
To reality cause I no longer want to try  
My dreams used to fly now their falling from the sky  
And life took a knife to the throat of my hope and said  
die But I couldn't  
Even reply  
Cause I never had a voice just the belief that it was  
mine  
Close your eyes, close your mouth, close your ears,  
close your mind  
They kill you if you ever findÂ... the truth  
So they keep it concealed and confined  
Were intellectually deprived  
Ignorance is power there will never be an answer to  
your why's  
The less you know the more they profit do just enough  
to keep the hope  
Alive  
Control you with fears so you never want to try  
To rebel, even though the world's on your side  
Let courage derive from the inner parts of I

#### [Chorus]

I,  
Fight  
I paid the ultimate sacrifice  
I gave my life  
To break through all  
Illusions and lies  
Without guns or knives  
I watched how the president x2  
Dies (echoes)

#### [Bridge]

I watched how the President  
I watched how the President  
I watched how the President,

[Verse]

The world is falling no one can catch it  
How can you progress with eyes closed and running  
backwards?  
So many questions with so little answers  
There is so little cures but there is so many cancers  
Every dollar you work for they'll be new ways to tax it  
Your money is a myth you owe it all to the bankers  
Pledge of allegiance to the dreams of a bastard  
Puppet of the system and the president is your master  
He listens to the light  
Those with black hearts but skin white  
They traded in their souls for the luxuries of life  
At no cost of theirs so your freedom was the price  
Forced to worship the "wrongs" and punish the  
"rights"  
But let your heart write and your soul sing  
Try to clip my wings but still I'm soaring  
To some break beats and lavish strings  
I'm ready for the fight let my words swing

[Bridge]

Though I walk through the valley of shadow of death, I  
will fear no evil,  
Cause my God is with me

Though I walk through the valley of shadow of death, I  
will fear no evil,  
Cause my God is with me

[Chorus]

[Outro]
