Verse

It's so complicated
The trouble with me
I'm fighting a battle, that's hard to succeed
I'm more than determined
Priorities me
100% or it's nothing you see

Bridge

Let me live my life (Live my life, live my life)
We can make a compromise (Compromise,
compromise)
Stop playing with my heart (With my heart, with my
heart)
Coz I won't do things by halves

Chorus

I only want you to believe in me
Give my life some more meaning
There's only so much I can take
Only so much I can change,
Only one more chance I'm giving you to put it right
I only want you to believe in me

Verse 2

You're such a distraction
The pressures immense
It's already tough, and you're adding distress
You're so disapproving
You're making me weak
If I'm not perfection, why stick it with me

Bridge

Let me live my life (Live my life, live my life)
We can make a compromise (Compromise,
compromise)
Stop playing with my heart (With my heart, with my
heart)
Coz I won't do things by halves

Chorus

I only want you to believe in me
Give my life some more meaning
There's only so much I can take
Only so much I can change,
Only one more chance I'm giving you to put it right
I only want you to believe in me

Middle 8

Believe In Me

Ohhhhh

Is it too much to ask not to play with my heart,
To be happy for, happy for us
Is it too much to ask not to play with my heart,
For some positive, positive love
Is it too much to ask not to play with my heart,
To be happy for, happy for us
Is it too much to ask not to play with my heart,
For some positive, positive love

Chorus

I only want you to believe in me
Give my life some more meaning
There's only so much I can take
Only so much I can change,
Only one more chance I'm giving you to put it right
I only want you to believe in me

Ohhh
