Spreading all  
Hands on all  
Your guns, your uniform  
You act, omnipotent

Reckless fault  
Fuck you & you all  
You pass your stress  
Your fears into me

But Will  
Will rise  
Anger & Hate  
So mine  
Blood will never lie

Close my eyes  
Tell me lies  
Your fucking life of misery  
What none pretend you try to be

Feel your wrath  
No pride left  
You wake, no time  
No shit, no life

Who made you GOD  
Not that badge, not that uniform  
No shit, nothing
