A wasteland grows inside my mind As the moons sets
before my eyes My
dreams are old and milleniums passed by Torn - in a
strong reality
Born - into the wrong century I am soldier of dark
existence I'll
last eternally... I am the triumphator In the grip of
eternal frost
Domination, devastation Eternal damnation ...Not just
evil
imagination Drum auf bereit zum letzten Stob
Wie's uns're Ahnen waren Der Tod sei unser
Kampfgeschob Wir sind die
schwarzen Scharen!
Eternal Damnation... Und dem Leben soll kein Reich
mehr bleiben
Total devastation!ons merge into ashen skies
