A wasteland grows inside my mind
As the moons sets before my eyes
My dreams are old and milleniums passed by
Torn - in a strong reality
Born - into the wrong century
I am soldier of dark existence
I'll last eternally...
I am the triumphator
In the grip of eternal frost
Domination, devastation
Eternal damnation
...Not just evil imaginations

Drum auf bereit zum letzten Stob
Wie's uns're Ahnen waren
Der Tod sei unser Kampfgeschob
Wir sind die schwarzen Scharen!
Eternal Damnation...
Und dem Leben soll kein Reich mehr bleiben
Total devastation!
