DON'T YOU WRITE HER OFF LIKE THAT
McGUINN, CLARK & HILLMAN

Been atop of the New York skyline
Sailed across the ocean blue
Been alone on a desert island
And I've been a guru too

Don't you right her off like that
Don't you right her off like that
Don't you right her off like that
She's a real fine lady, don't you see

Don't you right her off like that
Don't you right her off like that
Don't you right her off like that
She's a real fine lady, don't you see

I met the girls in every city
Every town that I passed thru
You won't find one half as pretty
Or one with a heart so true

Don't you right her off like that
Don't you right her off like that
Don't you right her off like that
She's a real fine lady, don't you see

Don't you right her off like that
Don't you right her off like that
Don't you right her off like that
She's a real fine lady, don't you see

If you leave her now he'll get her
Then I know you'll change your mind
You won't find one better
Can't you see that love is blind?

Don't you right her off like that
Don't you right her off like that
Don't you right her off like that

She's a real fine lady, don't you see

Don't you right her off like that
Don't you right her off like that
Don't you right her off like that
She's a real fine lady, don't you see

Don't you right her off like that
Don't you right her off like that
Don't you right her off like that
She's a real fine lady, don't you see

Don't you right her off like that
Don't you right her off like that
Don't you right her off...
She's a real fine lady, don't you see Watkins
