I feel your body in here,
I just can't let go now
I feel your body in here,
I just can't let go now
I've seen you from across the room
I feel you .. if you know the deal.
You're so sexy, you make me rise!
You're so fine girl,
I can't take my eyes off you!

I feel your body in here,
I just can't let go now
I feel so alone without you!
You're so anonymous
Hell, I don't know your name,
But there's no one to blame as we fall
In love, that's correct
Love, that's forever
Body searching for.
Love, that's forever
Body searching for.

The DJ got everybody moving
You're so close , I could hardly breathe
But your heat keep me so alive
You're so beautiful
Girl, I can't deny
That's why I'm here!

Chorus:
I feel your body in here,
I just can't let go now
I feel so alone without you!
You're so anonymous
Hell, I don't know your name,
But there's no one to blame as we fall in
I feel your body in here,
I just can't let go now
I feel so alone without you!
You're so anonymous
Hell, I don't know your name,

But there's no one to blame as we fall
In love, love, love

It's your boy, J L A T I F
And I just don't stress when we're out together
You change my world forever, nobody do it better
Fly with me through the weather
You're the type that I like,
You're the girl that I need in my life
Love, that's forever
Body searching for.
Love, that's forever
Body searching for.

Chorus:

I feel your body in here,
I just can't let go now
I feel so alone without you!
You're so anonymous
Hell, I don't know your name,
But there's no one to blame as we fall in
I feel your body in here,
I just can't let go now
I feel so alone without you!
You're so anonymous
Hell, I don't know your name,
But there's no one to blame as we fall
In love, love, love
