I was sitting on the banks of ohio  
Just wasting time with my baby  
And we're thinking we might just float down the stream  
And forget everything  
Get lost on the ohio

Now we both got jobs and bills to pay  
Honey, come on let's go make a name for ourselves  
Would you take a chance on a poor boy like me  
You know good love is free  
Get lost on the ohio

Me and my baby been steaming this river  
3 months of soul  
Yeah we've been down illinois  
Spent some time in louieville, kentucky  
With doctor james crow,  
Getting lost on the ohio  
Now we ain't got no place to go  
We're gonna sit right here and roll the pole  
Rivers gonna take us away  
Rivers gonna take us away  
On down ohio

Now it's back home and it's back to work  
Working the back right off of my shirt  
Sometimes I can still smell that river breeze flow  
And I remember, the summer  
And only my baby and I know  
Getting lost on the ohio  
Oh, oh, getting lost on the ohio.
