Party like a devil in delirium  
Run like a maniac to strike  
Stripping off and wander  
Fast like a thunder  
It's time to celebrate the feast of crime  
No explanation  
Fear of nothing  
Good feeling to my friends  
The wild hordes are on the move again  
Standing next to couple fantastic terrorists  
I'll pull my gun and shoot them down  
If I would miss I would be so pissed  
So I shoot 'em over and over again  
No explanation  
Fear of nothing  
Good feeling to my friends  
The wild hordes are on the move again  
All I always, till the peak  
The never ending end  
We have no fear  
Good friends until the end

No explanation  
Fear of nothing  
Good feeling to my friends

The wild hordes are on the move again  
Jumping off a plane which is going down the drain  
In free fall I ought to decide  
Should I remember my time in September  
Fuck it man, I will survive this crash  
No explanation  
Fear of nothing  
Good feeling to my friends  
The wild hordes are on the move again  
All I always, till the peak  
The never ending end  
We have no fear  
Good friends until the end
