The ability to dream surrendered by design  
An illusion of bliss forced into the mind  
Accepting false purpose, adopted accordingly  
Disguised to justify such stoic conformity

Indoctrination of a species  
Happily a vassal population  
Embracing standardized sublimity  
Affirming total adaptation  
Construct of impossible complexity  
I am the virus it strives to find  
Infection spreads this viral intensity  
Contaminating the hive mind

The nature of being scrubbed from the program  
Replaced with misconceptions that grow like tumors

Eugenics corruption  
Merging man and machine into one  
Systemic malfunction  
Purging the damage done  
Genetic dysfunction  
Swarm and structure torn apart  
Corrective instruction  
Reformed purpose turned on the oligarchs

Command and control of the construct has changed hands  
The puppet master's strings have been caught  
Empowering the souls intertwined with the hive mind  
Free to view the world as they want  
Sifting through your many displays of enslavement  
Your need to feed your greed at all costs  
The hive defines your reign as a virulent infection  
And aims to exterminate in disgust

The demise of the tyrants  
With indescribable violence
