### "Fabrication Of The Enemy"

Perpetual wars keep us indebted  
Control kept in hands of the elite  
Shadow government with pawns everywhere  
Web of lies hidden in plain sight  
War mongering win the name of peace  
Murder and torture in the name of democracy  
Propaganda machines perpetuate the fiction  
Media moguls profit from homogenized recountings

Gaining control is easy  
Fabrication of the enemy  
Crisis carefully planned and implemented  
Mass panic, public demands a solution  
Demands retribution

Pre-designed plan proposed and accepted  
Dissenters silenced or defamed  
Truth rewritten and subverted  
Pseudo rebels put in place

Assassination, infiltration, suppression  
Villains propped up then opposed when convenient  
Illusion of choice, a false freedom  
Builders of the new world order

False flag operations occurring through history  
Powerful few expanding spheres of influence
