The truth must lie somewhere in your scripted lines,  
Sterilized to keep the sheeple neutralized,  
Painted faced corporate puppets propped in place,  
To regurgitate propaganda everyday,  
Naive ignorance transfixed on the syndicate,  
Meticulous programming transmits for the omnipotent,  
Altering the thoughts you think are of your own

genesis,  
Disinfotainment targets all with subliminal influence

Psychological warfare - Secretly waged on millions of

people  
Fundamental methods of popular control  
Elimination of individual critical thinking  
A whole new army of remote controlled drones

Subversionary repetition necessary  
For these luminaries to animate your adversaries  
Belief systems synthesized by your television  
Complete fiction blinds you from your mental prison  
Simplistic negligence does not dismiss the

consequence  
Your symbiosis omits your guise of innocence  
Conniving sellouts in a black abyss of arrogance  
This verbal impotence insults my fucking intelligence  
Mesmerized, your mind entrained, tranquilized  
Hypnotized, lethargic state, paralyzed  
Traumatized, you will obey, lost inside  
Bastardized, you are a slave, dehumanized

You glamorize this new world order paradigm  
Lies disguised to fool those you've lobotomized  
Hollow clones perpetuate the status quo  
You sold your soul to serve the tyrants of control
