Disrupting the balance between mass and motion  
A fragile marriage, no chance to survive  
Tectonic harmonics force collapse into oceans  
The human race washed away with the tide

The collective calm in mortal oblivion  
Instruments of the tyrannized  
The collective calm in mortal oblivion  
Decimated and pulverized

Scorched skies, magnetosphere disappeared  
Oceans rise, as the earth beneath your feet sinks deep  
into the sea  
Burned alive, spontaneously combust into ash and dust  
Vaporized turning all of earth into a burning ball of  
dirt

The collective calm in mortal oblivion  
Instruments of the tyrannized  
The collective calm in mortal oblivion  
Illumination right before your eyes

Earths rotation slows to a pause, ending all  
centrifugal force  
Gravitational tug of war, land mass drowning in a water  
world  
Virulent biosphere, solar winds rip through the sky  
Technology in the hands of the wicked  
Magma shooting through the soil, global quake as  
continental plates grind  
The foremost authority in fucking with nature  
And now it's too late

Billions die in the blink of an eye  
Forced to pay the price for the abuse of the device  
Mass extermination a state of devastation  
The world set ablaze, bring forth the end of days

Pandoras box unlocked by fools of infamy  
Unleashing hell on earth, a living nightmare  
Absolute chaos erasing all mortality

The stench of death consuming the air  
Water Bloated Bodies  
Amassed on virgin shores

Monolith bringer of death  
Chaotic inane extermination  
The calm replaced by excruciation

Avarice of the few and privileged order  
The origins of the cursory, travesty cast down upon all  
Ignorant to the realm of possibilities  
The consequence is a fate thats shared by all
