I [?x]

Never say die [4x]

When it's dark, and it's cold
And the world just seems to wander out of sight
Just call to me
When your fear comes alive
You become my star that's fallen from the sky
You will survive

Don't close your eyes
I don't wanna see you cry
Just ride on through the night
And let me see you shine, and...

Never say die
Don't ever say die
Take a ride and go insane
You will never feel no pain now
Never say die
Don't ever say die

I [?x]

Never say die
Don't ever say die
Take a ride and go insane
You will never feel no pain now
Never say die
Don't ever say die [2x]

Take a ride and go insane
You will never feel no pain now
Never say die
Don't ever say die

I [?x]

When it's dark, and it's cold
And the world just seems to wander out of sight

Just call to me
When your fear comes alive
You become my star that's fallen from the sky
You will survive

Don't close your eyes
I don't wanna see you cry
Just ride on through the night
And let me see you shine, and...

Never say die
Don't ever say die
Take a ride and go insane
You will never feel no pain now
Never say die
Don't ever say die
[2x]

I [?x]
