Run to heaven with me [4x]

Something's coming over me
And baby, you're the one I need
Your eyes, they shine like the midnight sky
You are always on my mind
I just wanna make you mine
Lost and alone, I see you fade away

I'm so blind
Baby, I cannot see
I know you believe in me
You've got me on my knees
'Cause you are the air I breathe
Your soul, it touched my heart
It's tearing me apart
So take my hand and run to heaven with me
[2x]

Something's coming over me
And baby, you're the one I need
Your eyes, they shine like the midnight sky
You are always on my mind
I just wanna make you mine
Lost and alone, I see you fade away

I'm so blind
Baby, I cannot see
I know you believe in me
You've got me on my knees
'Cause you are the air I breathe
Your soul, it touched my heart
It's tearing me apart
So take my hand and run to heaven with me
[2x]
