"Fallen Down"

When it feels like heaven
When it goes forever
When the time is right
It's our own desire
We are reaching higher
At the speed of light
We are going to the light
We are fallen fallen fallen
We are fallen fallen down

We are fallen down
We are fallen down
We are fallen down
And to ..
We hold on to the light
We are fallen fallen fallen
We are fallen down
We are fallen down
Fallen down fallen down
We are fallen down

Thanks to feel
