

Abomination Of Chaos "Sparkle"

Visit "[Sparkle](#)" on MotoLyrics.com

I close my eyes
As your lips touch mine
Those hands of yours
A touch so divine
A sparkle to a fade
As the end drifts near...
Watch it glimmer
Then disappear
(Chorus)
Star light
Star Bright
I cried myself to sleep again last night
I wish I may
I wish I might
I slit my fucking wrists for you... again last night

I wish for you
On my forked tounge
Somehow it seems
So overdone
Another problem fades this
Sparkling light
Another wish for you
That was enver right

(Chorus)
Star light
Star Bright
I cried myself to sleep... again last night
I wish I may
I wish I might
I slit my fucking wrists again... for you lastnight.
