"Ha ha ha ha ha ha!"

[King Ghidra/King Geedorah]

..Ghidra has arrived

You guys could take five

By the time it's over...

No snakes alive!

Take the dive, I'm tellin you, you better off

Then up against a flow to make her, take her sweater  
off

From the set off when it came to scripts he could hardly  
brag

It's the result of concentration, and lolly-gag

I said "Yeah right" he pulled the mic out a snotty rag

Sealed up air-tight, and wrapped up in a body bag

Get a advance and catch chance writer's block

After spendin the first and last penny

My own worst enemy

Tell me if I'm OD and usual flow

And made deals with these cats who keep sending  
dough, so

The Three Headed said it, never get busted

He's a man of his word who's not to be trusted

Beats encrypted, multi-faceted encrusted

Shorty pawn, keep mic rusted

(\*The beat and rapping get's faster\*)Sort of mellow

type of fellow

Who sometimes spaz on wife like Othello

Hell no he won't use words like illuminati

Or Gotti all shotty might use karate

Azar the Gaza cut I'll ask why a mask

With the gall style caps say nice fly

(\*Flow goes back to original\*)Exact dough til it stack

high, white ho, black

guy

The rap game, black eye

[Jet Jaguar]

Exhilaration, Jet Jag's accelerations

Touch speeds minds can't concieve

Achieve altered, attitudes and angles, angels answer

Aura, illumination, awesome interperation  
Awkward alarm, ankle house arrest and who's best?  
Monster Island Czars  
Crush pawn dreams to be king  
A frank reality  
Calculation could never be  
Quest destined, distant competition dusted  
Disgusted raise for second, crowded  
clouded confusion, conclusion: simple, plain  
Self education, self made millionaires  
Serpents slitherin, sidewind searchin  
Stalkin, heat sensin  
(\*Beat goes faster\*)Can't have me Jet Jag's riki tiki tavi  
Superhero hit zero to sixty  
Hot pursuit, pedal to the floor  
Handlin lyrics, traction swervin  
Left right makin head fix, layin high stakes  
Levitates, quick hit breaks  
They fly past hit war parts fly loose, kill a mongoose

[Rodan]

Fake niggaz contiuue to practice the art of intimidation  
Sterile minds concieve and threw up all artificial  
insemination  
Syntax a sequential rage unless it's all deliberate  
Angle wide words clear, but population stay illiterate  
Consider it God's a fine power, fools get rid of it  
Men build dreams on promises but lacken the will to  
deliver it  
You, I dissolve connivers like saliva on tic tacs  
World is strange, but get the job done like sises mix  
max  
Flip tracks, murder stinks, drunk niggaz killin six packs  
Chokin on venom, suffered tricknological kick backs  
Poverty stricken minds, all thoughts barely worth two  
cents  
Build history through time, many a design on  
blueprints  
Anooshes slides in the sky, eight-five percent never  
knew  
Wise men arise, pull files like internal revenue  
Forever true, appauled? There's self evidence with  
leverage  
(\*The beat and rapping get's faster\*)Upset? The beast  
belly concoct  
homogenised beverage  
Clever shit, calculate a sabatoge trojan horse  
Gift from ? see through any G motion that grows in  
force  
Chose to toss to teach familiar line throughout the  
underworld

God of elevation kills Superman, rape Wondergirl  
The discounted, decapitated rapist it's acceptable  
The everyday occurrence a fatal outcome's inevitable

[King Ghidra/King Geedorah]  
..Might as well join the forces boss  
Chance take a loss like coin toss  
Roll with the double headed nickel  
Pawn the pawn a Jet Jag with the sickle you and a pickle  
King Ghidra yo you ass betta leave 'em alone  
Before ya go catch a seizure and leave 'em blown  
If you ain't the best of the best in the top three  
Either myself, I and me  
Don't even think of caps  
But act like you had a slight inkling perhaps  
Or get smacked back in the ring like Bob Backlund  
Ink jet black and wack...

"Hahahahahaha!  
Hey, what's the meaning of this?"  
"Shut up!"  
"Hahahahahaha, young man.."
