[Music: Thijs, Aborted; Lyrics: Sven]

Serialistic - Thriving on my lust to kill
A half gnashed torso skulpted at my will
Blood is pumping as I retract the cleaver
Necrotic fungus, man has found it's redeemer

Enter into the realm of gore
Parasitic I feed on you worms
Where love is cancer and apathy is bliss
I - am an artist of coital bile
Forcing my ways into flesh with desire
Incinerations of those who stand amidst
More bodies for me to roast and grind...

Voluptiously I trampled, rendered to snot
Savagely I lacerate, grinding your fucking face

Aroused by the pile of chunks
I must satisfy my needs
The gasping wounds are grasping
Around my flesh impaling cock
Upon your cadaver I piss...
