Live your life in fear rely on your dependence  
Push the blame believe you're shit always pretending  
We're all at fault except the image in the mirror  
Truth it hurts when spoken easier to cower

[Chorus]

Eat the worm  
Eat the worm  
Eat the worm  
Choke on dirt worm

Circle of despair now healing your dependence  
Shoulders yearn for tears now needing some attention  
[Repeat Chorus]

Live your life in fear  
Rely on your dependence  
Push the blame on anyone  
You're just pretending  
Everyone's at fault  
Except the mirror image  
Truth it hurts when it's  
So much easier to cower  
Much easier to cower

You fucking worm
