Standing
Standing in the rain...
I'm waiting
Waiting here for you...
I'm standing
Waiting in the rain...
I'm waiting...
Waiting here for you

Nothing...
Nothing left to feel
After you went
I need you now
Don't want to forget

So many smiles
All belongs to you
Just tell me what I need to do

I'm Standing
Standing in the rain...
I'm waiting
Waiting here for you...

Every moment feels the same
Every second...
I guess I'll never understand
Why this happend
Days...
Days without you
Just tell me what I need to do...

I'm Standing
Standing in the rain...
I'm waiting
Waiting here for you...

I'm WAITING...
