[Intro]

I cannot do what I have Done
I cannot say what I have said
Can't take it back, It's little late now
I didn't mean to hurt you, Baby, Any Way

[Verse 1]

Once I had a life, Couldnt understand so i trampled it
tryin' to build a new one from down the earth i'm proud
of it
made mistake, All ma life, Everyone does, I aint
superhuman
Loves gone besidea me, Now i'm all alone in this shit,
damn
You made me laugh, You made me cry, I still
remember the days
It's hard for me to forget, regrets, I tried many ways
Ma mistake was I slit the throat of our relation
Feels stupid now, I'm in the mist of unsatisfaction
The joy in your eyes turned into tears
After ya's gone all i got was smoking and beers
All i'm got left is mA fuckin problems in ma pocket
feels to put all your memories in a room an just lock it
Coz..

[Hook]

All I wanna do is walk away, So i dont wanna lie to you
Something in your eyes says "Please dont go!"
I just wanna walk away
You see If I say, I'm gonna end Up leaving you
And I don't wanna break your heart
Babe..
It doesnt matter what I say
It doesnt matter what I say
It doesnt matter what I say
It doesnt It doesnt It doesnt, It It
It doesnt matter what I say
It doesnt matter what I say
It doesnt matter what I say
It doesnt It doesnt It doesnt, It It

[Verse 2]

What i say it doesnt change the fact your gone
Like im trapped insida maze whose outcomes unknown
Ma concept of life just shattered like its made of glass
Like someones provoking me to look behind the past
Believings the only thing that i got left within
Once thats gone i dont even care i win,
the journey to the end, its talking too long
All the burdens outgrowing,i No longer can stay
strong
WHEN I HAD YOU I JUST CARED FOR NOBODY
For i have many promises to keep, So i want somebody
Ma lifes coin, flip it ya see regret on both sides.
When i close ma eyes i feel ya standing by ma side
Still...All I wanna

[Hook]

All I wanna do is walk away,So i dont wanna lie to you
Something in your eyes says "Please dont go!"
I just wanna walk away
You see If I say, I'm gonna end Up leaving you
And I don't wanna break your heart
Babe..
It doesnt matter what I say(What I Say, It doesnt matter)
It doesnt matter what I say(What I Say, It doesnt matter)
It doesnt matter what I say(What I Say, It doesnt matter)
It doesnt It doesnt It doesnt, It It
It doesnt matter what I say
It doesnt matter what I say
It doesnt matter what I say
It doesnt It doesnt It doesnt, It It
