I found in the stars the love that I want
The love that I want every single night!
I hope that it's true, yes it's true, I'm for you
You can give me the love, you can bring me,

Gimmie one love, gimmie gimmie one love
Now take me slow, now take me slow
Gimmie one love, gimmie gimmie one love
Now take me slow, now take me slow

Still I feel like you want me too
Baby you want me too, I know you want me too!
Still I feel like you want me too
Baby you want me too, I know you want me too!
Still I feel like you want me too
Baby you want me too, I know you want me too!
Still I feel like you want me
Baby you want me too, I know you want me!
I know you want me, want me, want me, want me!
Still I feel like you want me too
Baby you want me too, I know you want me too!
Still I feel like you want me too
Baby you want me too, I know you want me too!

Gimmie one love, gimmie gimmie one love
Now take me slow, now take me slow
Gimmie one love, gimmie gimmie one love
Now take me slow, now take me slow

Still I feel like you want me too
Baby you want me too, I know you want me too!
Still I feel like you want me too
Baby you want me too, I know you want me too!
Still I feel like you want me too
Baby you want me too, I know you want me too!
Still I feel like you want me too
Baby you want me too, I know you want me too!
