I keep looking at you girl
I swear I can't take my eyes off
Every single time you walk by
You shine too bright
Need to turn the lights off
How you doing, what's your name
I'm so glad your came
Who them pretty girls you with
Girl I really like the way
You drinking the chardonnay
Go ahead and take another sip
I was wondering if you could meet me on the dance
floor
When you arrive girl, all that I want you to do for me

Shake it up baby
I can shake it to ...
On the floor till you get it just fine
Shake it up baby
Like you in the casino
On the hit and you've been moving all night
Shake it up baby
Like you doing the hula
On the sand of wikiki
Shake it up baby
Like you catching the spirit
Go on baby shake your tambourine
Let's see you shake it girl
Let's see your shake it
Let's see you shake it girl
Let me see you shake it

You keep moving like that girl I promise
I'm gonna take you home
How you doing what you doing
Would make a preacher ruin
... bad to the bone
I ain't never seen nothing quite like you
Girl I know you done heart it all before
So I ask what's ... what am I gonna do
Need the keys so I can open up the door

I was wondering if you could meet me on the dance
floor
When you arrive girl, all that I want you to do for me

Shake it up baby
I can shake it to ...
On the floor till you get it just fine
Shake it up baby
Like you in the casino
On the hit and you've been moving all night
Shake it up baby
Like you doing the hula
On the sand of wikiki
Shake it up baby
Like you catching the spirit
Go on baby shake your tambourine

Uh, baby I know we danced all night
If you ...the rest of our life
And if it sounds good
Then baby let's drive
Baby we'll start a memory
One for you and a girl for me

Shake it up baby
I can shake it to ...
On the floor till you get it just fine
Shake it up baby
Like you in the casino
On the hit and you've been moving all night
Shake it up baby
Like you doing the hula
On the sand of wikiki
Shake it up baby
Like you catching the spirit
Go on baby shake your tambourine.
