I take you everywhere I go, you're not there at all.  
I try to lean against you, you're not there to catch my  
fall.

Well I can leave this lonely world but I keep it alive,  
so I'll still lay beside you when I go to sleep at night.

I wish you knew how I think about you,  
I wish you knew what I'm goin' through.  
I wish you knew that you're all I know,  
I wish you knew that I can't let you go.

You're in everything a part of all that I do,  
you're my monopoly, you've got my mind askew.  
They ask me who I'm talkin' to, oh they can't see it's  
you.  
you escape me everyday but I continue to pursue.

I wish you knew how I think about you,  
I wish you knew what I'm goin' through.  
I wish you knew that you're all I know,  
I wish you knew that I can't let you go.

I wonder if I go anywhere with you.  
Do you ever hold me in the way that you used to?  
Does the same cruel world exist inside your lonely  
mind,  
where I still lay beside you when you go to sleep at  
night?

I wish you knew how I think about you,  
I wish you knew what I'm goin' through.  
I wish you knew that you're all I know,  
I wish you knew that I can't let you go.

I wish you knew, darlin' that we're not through,  
I want to let you know, that I miss you so.  
I wish you knew, baby that our love is true,  
and I want to let you know that I won't let you go.
