Strength
Will find another day
To break the salience of our sleepless minds
Fend
For your and my own sake
We sail together through the blazing sky

Send us shining out of this state
Divided we let go
Unite us we'll pay
For times our freedom leads us in vain
Derided we stand down
All blinded by faith

Mend
Our hearts won't lay astray
They soar forever, elevate us high
Bend
This life to our own ways

As freedom comes on clouds of smoke we ride

Send us shining out of this state
Divided we let go
Unite us we'll pay
For times our freedom leads us in vain
Derided we stand down
All blinded by faith

Will we ever settle
In turning our minds into mute harmless foes
And then we'd let go

Send us shining out of this state
Divided we let go
Unite us we'll pay
For times our freedom leads us in vain
Derided we stand down
All blinded by faith
