[G1] Ain't nothin - this nigga in here stressin

talkin that old off the wall back to Africa shit again

[G2] What, that God Body shit?

[G1] Yeah, that dumb shit

I'm tryin to get up OUTTA here

[G2] I hear that.. but yo, you know the spot is pumpin
tonight

[G1] Word f'real where?

[G2] You know, where the real niggaz is poppin the
Cristal

NOT THAT WHITE STUFF!

[G1] Ha hah! Word where the real niggaz at?

[JoJo Hailey]

Listen.. to reason

Pretty baby baby listen..

[Nas]

A young wild beautiful love child

You like them thug style link rockin, then mink coppin

Hit you on the sink a hundred dollar drink poppin
The head'll make you take him shoppin, a foul doctrine
Reminiscent of my first time up in a chick
You was innocent, but now you rent-a-dick, wear the
tightest shit
Chanel lookin real, airbrushed nails
Hit the gym, hit the scales, heaven-sent but negligent
(so fine..)
To see a prophecy, your ebony tone is lockin me
The way you moan make me daydream of you on top
of me
Wishin I could be the one man; but you juggle
way too many Willies all in one hand
You wanna run up in clubs, gettin rubbed on
Niggaz pull your hair, shake your fat rear
Get your fuck on - followin week, you back there
But what you stuck on, weed, clowns and cars
Puffin with some lil nigga, husband not knowin she's
out
Could you believe Eve, Mother Earth of the seas
Niggaz thirst you, you just let em hurt you and leave
What up mah, frontin like you naive
Pusherman's whip, callin police when you flip
Can't understand it, yo it should be a throne for us
But for now that's a whole different zone from us,
word!
Chorus: JoJo Hailey
Diamonds all shinin, lookin all fine

Pretty little face, get a little high

Young girl strugglin, tryin to survive

Mother of the Earth, she made you and I

Just tired of playin the same ol' games

Messin with my mind, emotional thangs

And there goes.. a black girl.. lost

[Nas]

Like Isis, she got you heartbroke and felt lifeless

Grow up girl instead you want revenge so now you act
the nicest

to who'sever gettin down and trifless

To get his mind all you do is give him somethin
priceless

Cause in time he'll realize the thighs is all he needs

More than weed, then you hit him off with lies and
greed (deceit, yeah)

There you go again, startin wars, makin me more yours

Seem to get a kick out of keepin me on all fours

Face glistenin, I'm addicted to you

Original, Wisdom Body got me picturin you

Igloos of ice trickin on you, you never listen

to this nigga spendin Franklins on tennis anklets

Must've had a bad deal in the past though

Can't even keep it real with a nigga with cash flow

Say men are all the same, what we need to do is break
this chain

You got a job part-time and school's your night thing

With dreams to settle down, it ain't far from now

You gettin interviewed, but your boss is into gettin
screwed

Typical day that the black girl sees

Comin home wantin more from a college degree

Chorus

[Nas]

Where are you focused, on legit niggaz and where the
coke is

Nice and Thug Life niggaz, yo you seem hopeless

Your value - too much to be measured, I wonder how
you

could ever be played, your pussy worth gold amountin
to

more than the world, but not knowin nothin about you

You leavin the crib, takin all your kids out to

drop them off, lettin some nigga knock you off

So hot and soft, that's the same thing that got you lost
(you should be ashamed)

Growin up seein it, it should remind you, you bein lied
to

Everything that move be inside you

Sacred as you are, left with these wannabes to guide
you

I watched you, hard to knock you, I tried not to

They spot you out dancin topless in your drawers

Damn look, there goes a black girl lost

[JoJo Hailey]

You should be ashamed of yourself

The way you carry yourself

The way you hang out all night long

Doin silly things that is wrong

Black girl.. *fades out
