(Hook - Teddy Montana)

I'm chasin' my dreams down. Know a lot of peeps that hate me so I can't be seen in town. Already almost been jumped. Been a second, I quit slingin the green now. Cause the feins talk to the boys in the blue. So all my hustlin' days are through. I'm chasin' my dreams down. Know a lot of peeps that hate me so I can't be seen in town. Cause the feins talk to the boys in the blue. So all my hustlin' days are through.

(Verse 1 - Wreck iT)

I got thoughts that I normally wouldn't. Now I'm doin' all the things that they said that I couldn't. Homie I'm not soft. I'll cross you over. I aint talkin' Hot Sauce, you can talk to your fam through John Edward. I'll cross u over. Bag of chron got the odor. I'm heavily weeded. Back in the day I woulda told you I got it if you need it. But lets keep that a Victoria Secret. Now it's back to the basics. Test my patience, I'll crack your faces. Whoa! I make the trouble go. I don't fight bitches but I'll stone-cold-stun a hoe. Flex on a perpatrator, watch my muscles grow. I kick it so much I could bust a toe. A couple puffs of that gonja... now I'm in my comfort zone. Came from nothin'. Now we're fuckin' known. Ain't that somethin'? It's all from the microphone.

(Verse 2 - Wreck iT)

You think it's wrong that? I'm not tryin' to keep contact.

You must be on crack. Nah, way beyond that. Don't fuck with me. I got rid of the negative people in my life... now I'm sucker free. Got hot tracks in abundancy. You wasn't there before. I don't need your company. It won't change suddenly. Won't change slowly. Everything I got, you ain't help me get. You don't know me homie you can't tell me shit. 2008 it's mayhem still. A jab to the face will leave you with a Strahan grill. Right on pace so chill. I was born ill. Used to smoke that dirt. Had to throw in an orange peel. If you only knew what I imagine. The stakes that are stackin'. Absolut's makin' it happen. You don't know what it takes for this rappin'. One mistake and your crashin'. If I ever need help, shit, I ain't askin'.

(Verse 3 - Wreck iT)

I won't stop even if my pockets swole. We got control. Fuck another obstacle. We spittin' fire. Better stop, drop, and roll. Peeps in IA, they quick to call the patrol. We live by the code. Keep your mouth closed. Before you get exposed. Strawberry red leakin' down your clothes. You ain't beefin' with no hoes. This is the life you chose. Watch it all flash in front of you. Get filled up with holes. God sayin' "Make your self comfortable." I'm dodgin' and divin' if it means I'm survivin'. When it's time to go, you don't know who's decidin'. Your life's close to expirin'. Peeps rollin' up. I don't know if they foes or admirin'. They packin' on campus, we askin' for answers, they blastin' that cancer. Another body in the cemetary. Get popped at work. Capped at the library. Is it really necessary?
