My heart to you adrift
sukaku is you
bahagialah I now hmm

Wherever we both promised
always walk with
of current
forever huu ~

With you my life has always been both
That's my promise to you faithful
Look after you all my life
beside you in every time my hoo ~

God who unites us
because all of this is the plan
Whatever happens in front of us
always surrender to Him ~

My life has always dengamu both
That's my promise to you faithful
Look after you all my life
beside you in every time my hoo ~

with you
with you
