The first moment I saw you, two years ago. And you got
me so low. Girl you
Got the flow (uh yeah). We said hello and we thought
our love would glow.
But then you was go and I was in the shadow...

Let me think the start of our relationship. It feels like
two ships clashed
Together. And we said 'you and me' forever. But every
relationship says
It's gonna be forever...

Look at a star in the sky and think of me (yeah). The
shining of the star
Let you think about me (let you think about me, uhh).

But then you saw an another guy in the corner of your
eye. Since then, are
You, passing me by. Without even saying hi or bye.
Without you I can't fly,
In my mind. This relationship, was a lie. You broke my
heart, so hard I
Cry. But why, are you, leaveeeddd me. Girl, remember,
I'm still in love
With you.

Giiirrrlll, I'm nothing without you. Baby boo, I looove you
(I do).
Giiirrrlll, I'm nothing without you. Baby boo, I looove you
(I do).
Giiirrrlll, you know that I want you. Baby boo, I know that
you want me
Too. Giiirrrlll, you know that I want you. Baby boo, I
know that you want
Me too.

But then you saw an another guy in the corner of your
eye. Since then, are
You, passing me by. Without even saying hi or bye.
Without you I can't fly,
In my mind. This relationship, was a lie. You broke my

heart, so hard I
Cry. But why, are you, leaveeeddd me. Girl, remember,
I'm still in love
With you.

The blood in my heart let me think of our kiss (our kiss).
I look in the
Sky, and don't see our love (our love). The blood in my
heart let me think
Of our kiss (our kiss). I look in the sky, and don't see
our love (our
Love). Giiirrrlll, I'm nothing without you. Baby boo, I
looove you (I do).
