

K.One**"Bring That Beat Back"**Visit "[Bring That Beat Back](#)" on MotoLyrics.com

Okay
Yeah, I go by the name of K.One
Let's go

We sending out an S.O.S.
We sending out an S.O.S.
We sending out an S.O.S.

Oh no, somebody took that beat from me
Can somebody help me 'cause the beat is all I need
We got drinks, but it ain't the same
We got girls, but it ain't the same
If I can't hear that beat in my ear
I'm off home 'cause I just don't care
I wanna sip until I got none left
I wanna feel that bass in my chest
I wanna wake up and feel like death
Do it again 'cause we need no rest

They wanna come and take it
Without it, I feel naked
CPR that beat 'til that sucker respirated
And they don't wanna play it
So do it just for me
Yo, DJ, press that button and
Bring that beat back
Bring that beat back
Bring that beat back

[Chorus]
Oh, oh, oh
We just want it all
Bring that beat back
We want some more
We just want it all
Bring that beat back

Oh, oh, bring that back so I can hear that one more
time
I got it like, oh, oh, you da best and I love your every
line

And she got a man, but he ain't the same
Not trying to leave him, but she just saying
We all here and it's just one night
So she wanna let go for just one night
She wanna dance 'til the sun comes up
She wanna get drunk and get loved up
And we wanna party and get fucked up
If you got a hand, then throw one up

They wanna come and take it
Without it, I feel naked
CPR that beat 'til that sucker respirated
And they don't wanna play it
So do it just for me
Yo, DJ, press that button and
Bring that beat back
Bring that beat back
Bring that beat back

[Chorus]
Oh, oh, oh
We just want it all
Bring that beat back
We want some more
We just want it all
Bring that beat back

All we want is everything
All we want is everything
All we want is everything
All we want is everything

We sending out an S.O.S
We sending out an S.O.S
We sending out an S.O.S
We sending out an S.O.S

Bring that beat back
Bring that beat back
Bring that beat back

[Chorus]
Oh, oh, oh
We just want it all
Bring that beat back
We want some more
We just want some more
Bring that beat back
