You sit reading a paper  
Or you lie on the couch watching from stars  
While I'm in our bed  
That once used to be shared  
But the best part is when you come and say  
You had a meeting, a phone call  
And things that kept you away  
Some other lady I bet  
That's the kind of picture I just don't get

So tell me if it's over  
Tell me if it's over  
Tell me if it's over right now  
'Cause I need to get over somehow

My friends, you know the true friends  
They always wanna say something but they usually  
withdraw  
Then they say they must go  
Then eventually they say "I told you so"  
But I, I should have trusted their eyes  
I could have realized  
But I guess I must have been mesmerized

So now tell me if it's over  
Tell me if it's over  
Tell me if it's over  
Tell me if it's over right now  
What are you waiting for?  
Because I need to get over

As I look back  
I know I fought for anything you fought  
And I can't believe  
How I think I thought whatever you thought  
But I guess that I have been taught  
That next time I won't get caught  
In a web of lies  
As I realized

(Now I'm telling you)

It's finally over  
I can feel it's over  
I'm telling you it's over right now  
It's finally over  
We both know it's over  
So I'm telling  
So pack up your life and leave now  
'Cause I need some time to get over somehow.  
Because I need some time.
