I am the destroyer of gods  
you - servants crawling at my feet  
he who stands along my side,  
will know the truth

because without Me nothing you can do.  
if you bear with Me  
ask for anything you want  
and it will be fulfilled

remnants will taste the blood  
for they are unworthy to look at me  
I am the destroyer of gods  
I am the destroyer of gods  
I am the destroyer of gods  
I am the destroyer of gods

at first venom will infect souls of weak beings  
and all of small heart  
because there is no god without his  
adherents let the sun of the living calmly traverse  
through dead waters of the underworld yoke will fall on  
the sons of mankind  
for ages they will fight amidst themselves,  
they will be my joy.  
oh flame, thou who originates from glory,  
and comforts the righteous,  
stalking on Earth with feet of fire,  
understanding and endowing the living beings

and in the last hour great ones  
will return you the remnants of their immortality  
uncover the secret of your creation  
be my friend, since I am the same!

a day will come, when in the whirls of holy river sun  
of the living shall die  
Brood of Apopis will crawl out from six  
kingdoms to finish it's work.  
(blindmen from Places of Living Breath  
will regain the eyesight)  
but this will not be the time of obeisance

to the lord of first flame.  
fiery serpent will stand on top of black  
mountain announcing the creation about death of the  
immortals.
