[Chorus - Scar]

Stages in life no one said that it was right  
But I've got to hustle for the kids  
God only knows what I've gone and been  
Til we reach the end  
Just stay strong and be a friend

[Verse 1- Big Boi]

I cram to understand why a woman and a man  
Make a plan to enter matrimony then he takes her hand  
Put that ring on her finger couple of kids in minivans  
Standin in the stands like a fan watch her little man  
Run ball... And everytime you see the family they look  
happy  
Got her mama and her daddy and I think they got a lil'  
dog  
But daddy had her cat on the side  
He would hide her from his ride decide not to divide  
Kept the yam in the (hide) the spouse in the house  
Boy its cheaper to keep her you fuck around and take a  
loss  
Come up short like Short Dog cuss words flow like  
(Too Short sample: Motherfuckaer shit gotdamn  
asshole)  
Took my shit (Too Short sample: Beeitch!) FUCK!

[Chorus - Scar]

Stages in life no one said that it was right  
But I've got to hustle for the kids  
God only knows what I've gone and been  
Til we reach the end  
Just stay strong and be a friend

[Verse 2 - Big Boi]

It was the night that they done dipped and all  
throughout the palace  
That didn't do his part heartbroke or no more marriage  
When it happens you'll be slappin yourself rememberin  
You coulda remained boyfriend and girlfriend  
Now you sittin in the courthouse plaintiff and  
defendant

Pleadin to the judge you was in it to win it  
In the beginnin was splendid see she was grinnin and  
spendin  
All of her time wit the kids an' in the kitchen she'd cook  
She was fierce on the stove it was always great  
Covered plates in the microwave when I came home  
late  
But now we just debate like some candidates damn I  
hate  
Friction wishin I had paperwork on the misses but I  
didn't  
Damn... fuckin around

[Chorus - Scar]  
Stages in life no one said that it was right  
But I've got to hustle for the kids  
God only knows what I've gone and been  
Til we reach the end  
Just stay strong and be a friend

[Bridge - Sleepy Brown & Scar]  
Girl you have to remember  
I gotta provide for the family and future  
So please stay down and please stay around cause you  
know  
That I'm tryna change but its hard cause I've been this  
way  
(Big boi: Man you already knew that shit)

[Chorus - Scar]  
Stages in life no one said that it was right  
But I've got to hustle for the kids  
God only knows what I've gone and been  
Til we reach the end  
Just stay strong and be a friend
