There's one dream in my life

One that I love more

Than settle down

Fool around

Games that only drag you down.

So if you're blue and skies are grey

That's when I love more

The one dream in my life

The one dream that's in my life

The one dream in my life

That I live for.

There's a story that I heard

About a man at war

With himself,

He couldn't tell

Which side he was fighting for

So if your colours start to fade

That's when you reach out for

The one dream in your life

The one dream that's in your life

The one dream in your life

That matters more.

I woke up to find

Life was just leading me on that's all,

Then I found out

That I could reach it all

By just holding that one dream in my life

Right before my eyes.

The one dream in my life

The one dream that's in my life

The one dream in my life

That I live for.
