You touch my hand, I live for you

Because you're eyes they understand, I live for you

Come to me,

Lay your body down,

I wont deny you, anything

Look at me, I feel so different now,

You're the one i cry too

You're all around me,

I bring you in my head

You're arms have found me,

Like waves that find the sand,

And baby i'll be there

(Chorus)

You touch my hand, I live for you,

Because your eyes they understand, i live for you,

In my life, you come through,

I live for, I live for , I live for you.

Walk with me, the future's in the wind,

Though the road is winding, under me

Talk to me, tell me all your fears,

Im the one you cry too.

You call me lover, and told me im your life,
I wont run for cover, ive shown you who I am
And in my darkest nights..

(Chorus)

In you're arms

I come alive

(Live for you, Live for you)

In my life, I am free

No-one could ever understand,

What you do to me

(Chorus)

You hear my soul, so deep in you,

No body knows the things you know,

I live for you

In my life

(In my life)

You come through

(You come through)

I live for I live for I live for

I live for I live for you
