Waking in pain everyday  
Nothing of your former self  
Brittle and weak  
You pray for an end  
To the year and years of suffering  
Finally the pain is at an end  
It's time to die  
Lay down in the dirt forever  
You've dreamed of this your whole life  
It is what you've always wanted  
To be a corpus in a hole  
Your own dark hole

You wanted silence  
Now you have it  
The earth is warm and welcoming  
It spreads it's legs for you  
Insert yourself into the grave  
It's wet underground  
You don't need to scream anymore  
Everyone is glad that you are dead  
You where a fucking loser  
And now you are dead  
Rot my friend forever  
Rot forever.
