You watch in agony  
Spikes through your hands  
Nailed to the wall  
You can't believe your eyes  
As I mutilate the corpus before you, the intense gaze in  
my eyes  
I love your screams  
I can't help but kuckle  
I slice the skin off it's face  
And taste it's bounty  
Licking down it's torso  
And tasting it's cunt, now you know fear  
I get so excited  
I masturbate over the corpus  
Disgusted you cry in fear

With knife in hand  
I cut the flesh  
Hacking and tearing  
Through the neck  
The head is free  
Don't worry it is your turn now  
Your death will be something new  
With the corpus's hair  
Clench in my grip  
I beat the side of your head in  
The sound of collating skulls is so exquisite  
Blood pours from your mouth  
I caress the caved in side of your face  
And kiss your bloody lips.
