You and I, We are here for now
But someday we'll be gone
Like the flowers and the grass
And every melody of every song
I see the midnight sky and I
Wonder why I'm on the mind of one
Higher than I

He's High and Mighty - A Strong Tower
I am sheltered by his power
He is ever standing by my side.

Rulers rise they fall and die
But by and by I'll hide behind
The only - High and Mighty
No mountain high we see boasting
Proudly in the sky
Will dare refuse to glorify
I see the midnight sky and I
Wonder Lord just who am I
That I am on your mind...
