I try and I hope to sing my song
I rise and I fall it's not my fault
I run and I stop to hear your voice

I'm lost in my dream
I'm stuck with my fears
I am who I am
I know what I feel
I rise and I fall
To sing my song

And it's a Long way home
Yes it's a very long way home
If I close my eyes, I could feel you in my arms
But it's still long, long way home
Long way from home

You gotta reach where you never gone before
You got the key to unlock every door
And if you fall you can get back up again
You gotta fight and always make a stand
So what's the plan take a chance man woman
The damage and hostility is never what is meant to be
So realize you can smile again and every door that
been close up enough my friend
So when you feel all the trials and tribulation and
chaos over rules in every nation
And a statement from the president will never change
any pieces to the evidence
And that's Real.....

Long way home
Yes it's a very long way home
If I close my eyes I could feel you in my arms
But it's still long
Long way home
Long way from home

And it's a long long way home
Yes it's a very long way home
If I close my eyes I could feel you in my arms

But it's still long
Long way home
Long way from home

A Very Long Way Home
A Very Long Way Home
A Very Long Way Home
A Very Long Way Home
