Long night, no one to blame but myself
For feeling this way
When I, tried to recall feeling hope
I feel nothing at all

[Chorus]

Cause I have a lock, and someone the key
They're searching life, inside of me
Whoa, I still haven't heard
Those magic words, oh
Still haven't heard, those magic words

I've tried, all combinations
And keys, I knew never would fit
So here I am, with sweet melody
That needs to be set free

[Chorus]

Cause I have a lock, and someone the key
They're searching life, inside of me
Whoa, I still haven't heard
Those magic words, oh
Still haven't heard, those magic words
I have a lock, and someone the key
They're searching life, inside of me
Whoa, I still haven't heard
Those magic words, oh
Still haven't heard, those magic words.
